A BS IT graduate from Punjab University experienced in building full-stack web applications. Proficient in modern JavaScript, Next.js, and backend integration, with a strong track record of delivering functional web solutions and AI-driven features through personal and client projects.

Work Experience

SEP 2026 – PRESENT

Software Engineer Intern - CVZone

Working in Robotics and Computer Vision, contributing to educational content on drones, Arduino and Raspberry Pi. Managing and Updating CVZone Academy LMS (Learning Management System). Delivering new CV Projects, Integrating Drones, Robotics with CV using Python.

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, C++, C#, GDScript
- **Frameworks/Libraries:** Next.js, React.js, Express, Tailwind CSS, OpenGL, SFML
- **Databases/Tools:** Git, Docker, MongoDB, PostgreSQL, Pinecone, Ollama, Playwright

Projects

LawSite | Next.js, JavaScript, Tailwind CSS, MongoDB, Ollama

[\[Deployment\]](#)

- Developed a full-stack legal portal featuring searchable archives of 990 Pakistani laws, court directories, and a secure case management workflow.
- Engineered a RAG-powered AI lawyer using a local FAISS vector store, Hugging Face embeddings, and the Groq LLM to deliver cited statutory answers.
- Implemented secure user authentication with NextAuth (Credentials and Google OAuth) and automated email verification via Nodemailer.

MedSite | Next.js, TypeScript, Pinecone, Vercel AI SDK, Playwright

[\[Deployment\]](#)

- Built a comprehensive healthcare and medical directory platform aggregating over thousands of doctor profiles, hospitals and MedlinePlus articles.
- Integrated a AI doctor utilizing Pinecone vector search, Hugging Face API, and Gemini to ground responses in verified clinical data.

Fact Checker App | Flutter, n8n, Docker, Gemini API, Playwright, SearXNG

- Engineered a Flutter single-page chat app connected to an n8n backend running in Docker.
- Configured an autonomous AI agent utilizing SearXNG, and a Playwright server with FlareSolverr to scrape restricted web content and generate credibility scores with citations.

Education

Bachelor's of Science in Information Technology | BS IT

University of Punjab, Lahore

2022 – 2026
