BS IT graduate from Punjab University with a strong foundation in game development. Proficient in Unity C#, Godot GDScript, and C++ graphics programming using SFML and OpenGL, with hands-on experience building 2D strategy games, custom shaders, and procedural mechanics.

Work Experience

SEP 2026 – PRESENT

Software Engineer Intern - CVZone

Working on the company's custom autonomous drone simulator in Unity and a real-time visual tracking project in C++. And, working on interactive Computer Vision games utilizing Python, Pygame, and OpenCV (cv2).

Technical Skills

- **Languages:** C#, GDScript, C++, Python, JavaScript, TypeScript
- **Engines & Graphics:** Unity (URP 2D), Godot 4.4, OpenGL, SFML, ImGui, Raylib
- **Databases/Tools:** Git, Docker, Premiere Pro, Photoshop, Inkscape, Blender

Projects

Virus Clash (2D RTS) | Unity, C#, URP 2D, NavMeshPlus, HLSL

- 2D strategy base-capture game featuring biological obstacle systems using vector art and a custom path-following NavMesh navigation logic.
- Intricate AI opponent with probabilistic decision-making and designed custom HLSL shaders for blobs.
- Branching inheritance upgrade system supporting specialized defensive structures with dual-layer interception mechanics and attack units with charging abilities.

Blob Attack | Godot, GDScript, NavigationAgent2D

- 2D territory capture game focusing on real-time resource generation and unit upgrades.
- Global save-state progression system and a distance-weighted random AI opponent capable of prioritizing high-value targets and executing charged abilities.
- 100% human-made pixel art UI, character sprite sheets, and animations optimized for Android touch input.

Da Vinci Spinci | Unity, C#, URP 3D

- Top-down Vampire Survivors-like arena shooter featuring procedural terrain generation using layered Perlin noise and a dynamic multi-tier weapon upgrade system.
- Custom spinning defense mechanic tied to shield regeneration and a scalable enemy wave spawner that increases pressure over time.

Education

Bachelor's of Science in Information Technology | BS IT

University of Punjab, Lahore

2022 – 2026
